

OVERVIEW

Captaris Workflow and Microsoft BizTalk Server

Captaris Workflow is powered by Template and extends Microsoft BizTalk Server's powerful Enterprise Application Integration (EAI) capabilities with "people to people" workflow. This includes the provision of "human factors" (roles, departments, groups), "security factors" (management security, signatures, active directory synchronization) and "integration" capabilities with Microsoft BizTalk Server and other Microsoft applications.

CAPTARIS WORKFLOW

- **Out-of-the-box Functionality** - ships with predefined fully integrated workflows that can easily be customized to accommodate an organization's business rules.
- **Empowers Knowledge Workers** - allows anywhere, anytime, any device access.
- **Intuitive Interface** - user interface that is deployable within Microsoft Office, SharePoint, Web, or Windows applications, delivering streamlined effectiveness, efficiency and accountability.
- **ROI and TCO** - delivers measurable Return on Investment (ROI) and a lower Total Cost of Ownership (TCO) compared to other EAI solutions.
- **Flexibility** - customers have the option of using powerful wizards to design and deploy financial or other business related workflows. Migration to the fully Integrated Design Environment (IDE) allows the automation of any business process.

BENEFITS

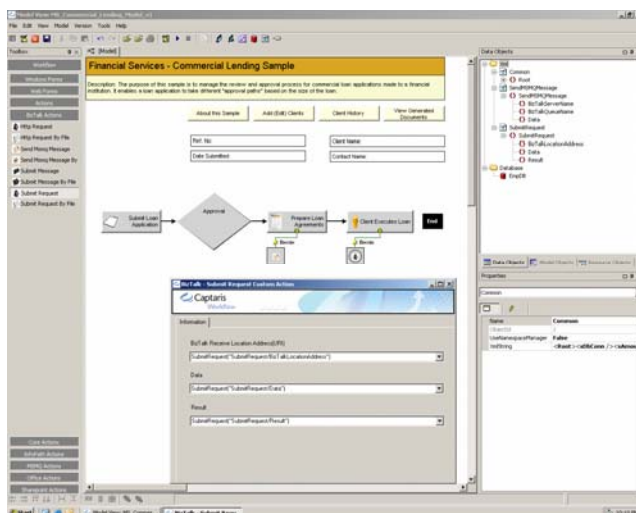

- **Visual Interface** - a Captaris Workflow solution provides a rich "people to people" user interface that is very easy to learn and use complimenting BizTalk's powerful "application to application" interface.
- **Prototypes and Building a Business Case** - BizTalk and Captaris Workflow can be combined to deliver compelling executive level demonstrations. In addition, the Captaris Workflow Rapid Process Justification can assist you in accurately projecting ROI and to build a business case.

KEY DIFFERENTIATORS

- **Pure .NET Technology** - developed using Visual Studio .NET, C# and XML Web Services.
- **BizTalk OEM Relationship** - Captaris has an agreement with Microsoft to embed the Partner Version of BizTalk in shipped Captaris Workflow servers.
- **Ease-of-use** - Captaris Workflow combines robust functionality with ease-of-use for knowledge workers, designers, managers and system administrators.

FEATURES AND INTEGRATION

- Captaris Workflow is able to exchange data and documents with BizTalk Server 2004 and take advantage of BizTalk server adapters such as HTTP and BizTalk Message Queuing Adaptors.
- The Captaris Workflow embedded XML technology enables the passing of documents that comply with the schemas used in BizTalk.
- Captaris Workflow Custom Actions enable and accelerate BizTalk Integrations. The following Custom Actions are available:
 - Submit message action
 - Submit message by file action
 - Submit request action
 - Submit request by file action
 - Send MSMQ message action
 - Send MSMQ message by file action
 - HTTP request action
 - HTTP request by file action
